RUSSIA NO REFUGE FOR BERKMAN CREW

Martens Says He and Goldman Will Not Receive Warm Welcome.

Plotting There as They Have Plotted Here May Mean Death, He Says.

According to Laidwig Christian Alexunder Karl Martens, who styles himself representative the official representative of Bolshevik Russia in this country, both Emma Goldman and Alexander Berkman are due to receive a severe shock when they but foot on sovietized Russian soil. In his office, 110 West Fortisth street, Martens said yesterday that while Bolshevik Russia may "tolerate" these two who are being kicked out of the United states, there is no possibility of it extending them a "welcome."

The solved, fur mittee of the get mittee of the ge

The wild boasts of the two anarchists that the entire population of Bolshevik Russia will lay itself at their feet upon their arrival are regarded by Martens as day dreams. He said that there is not even a remote possibility of either being bie to secure a Government position in Russia at the present time. to the fact that the anarchists and Bol-sheviki of Russia are rival parties, and that many of the former have been executed for ploting against the Lonine-

Trotaky Government. If either Goldman or Berkman plots against the Government that they are against the Government that they are likely to be executed. He admitted that 1,500 "Commissars," or public officials, have been despatched by Bolshevik execu-tioners for doing exactly what Goldman and Berkman have been doing here for thirty years past; that is, for plotting against the existing Government and obstructing its miniter; policy.

May Go to Kronstadt.

Representative issue Slegel of the Committee on ammigration, who arrived in this city yeaternay, said that the anarchists may be taken into Kronstadt by a naval vessel. It is the idea of Anthony A. Caminett. Commis-sioner General of Immigration, to have a special truce arranged for their delivery, but no definite decision has been reached on this point. Francis G. Caffer, tirade of Friday in which she said she receive a fair hearing. Throughout the Government's dealings with Emnra Goldman," he said, "clean handed fustice has prevailed."

It was learned that when the Congressional committee continues its investigation of conditions on Ellis Island the members will take up a letter that was written to Frederic C. Howe, for-mer Commissioner in charge of the sta-Finnish revolutionists.

In this letter Nuorteva appealed to Howe in behalf of a young "Red" who had come here as a stowaway. He de-scribed him in glowing terms and urged that the youth was "needed" by the local propagandists. From the papers in this case it appears that the revolu-tionist had already been sent back on the ship that brought him when Nuortoyn interceded, the speedy disposition having been due to the fact that his case did not go to the Department of Labor or the Commissioner.

Incensed at Wilson.

The members of the Congressional ommittee are greatly incensed over the refusal of Secretary of Labor Wilson to turn over to them the report which A. W. Palmer made upon conditions on Exis Island under Howe, and they are determined to force him to produce it. They feel that it would be of great interest to know what, if anything, Secreconditions.

Members of the committee expressed amazement at the statement of Attoramagement at the automated of the control of the cooperating with the Department of Justice in ridding the country of dangerous Reds. "Since MS), 1917," Representative Siegel said, "only sixty Reds have been deported 'only sixty Reds have been deported out of 1.097 selzed on deportation war-rants.' The number now awaiting de-portation on Ellis Island is cighty-two, and their cases have been rushed with ramarkable speed since the House committee began to look into the situation.

The Communist World, official organ of the Communist party, contained the
